Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The examiner respectively disagreed that the suggested amendment transversed the prior art. Applicant's representative argued their invention had two different memories which had significantly different access times. The applicant claim does not specifically state that the difference in access times are significantly different. The claim only stated that the access times were different. The examiner also pointed out that the amended claims were still rejectable under 101 because the amended claim language did not specify a practical application in the claim language.
